The Honorable Glenn 'GT' Thompson
US House of Representatives
400 Cannon House Office Building
Washington, DC 20510

Dear Representatives Langevin and Thompson,

On behalf of the members of the Veterans Education Project (VEP), which represents the interests and concerns of well over one million members of the Army and Air National Guard, their family members, National Guard retirees, and survivors, we are pleased to offer our support for H.R. 1592, the *Cybersecurity Education Integration Act*.

Members of the National Guard often have valuable military training in cybersecurity but have difficulty gaining the credentials necessary to get jobs in the workforce for their skills. Executive Director Daniel Elkins said, "The *Cybersecurity Education Integration Act* incentivizes institutions to create pilot programs that will capitalize upon our members skill-sets, drastically increasing the likelihood for programs to develop that will accept and accelerate our members towards valuable credentialing." These pilot programs will ensure that members of the National Guard continually advance in the workforce while taking advantage of their knowledge and training.

On behalf of our membership, the Veterans Education Project thanks you for your service and advocacy for our nation's Student Veterans. We look forward to working with you and your staff to advance the *Cybersecurity Education Integration Act*
