

FOR IMMEDIATE RELEASE  
December 26, 2018

**Washington, D.C.** – The Veterans Education Project (VEP) and the Enlisted Association of the National Guard (EANGUS) applauds Secretary Wilkie’s and Acting Deputy Secretary Byrne’s continued commitment to create open and clear lines of communications with VSOs and MSOs. These efforts have been demonstrated through both impromptu meetings with our members on the ground and official round table discussions over breakfast with directors of many Organizations at the Veterans Affairs headquarters. VEP and EANGUS are excited to join the VA in the fight against the epidemic of suicide that plagues our nation’s heroes. VEP looks forward to working more closely with the VA on access standards and the Post 9/11 G.I. Bill.

It is through our shared dedication to those that have served and their families that VEP and EANGUS are committed to joining with the VA in serving those that have served.
